

KLOVE is an incredible station which promotes all things positive in our lives, homes and communities. It is such a refreshing change to the other radio stations in this area. Hundreds of persons I know personally listen to KLOVE daily and I feel it benefits the community profoundly with its positive message. If KLOVE were to be displaced by a LPFM, it would deeply effect the quality of radio available to this area. It is by far the most superior radio station in our area. It is a source of hope and inspiration to many who have little and it promotes all things positive which therefore brings out the best qualities in our citizens. Please don't take that away. Please seriously consider the LPFM options. I know I am not alone when I state that KLOVE is most definitely in the very best public interest of our community. Thank you.
